"Oporto "The Garden" - An oasis of tranquility and recreationo

The lush greenery, the splashes of the old stone fountain, the chirping of birds and the occasional cry of a seagull make this garden a restful haven. Sheltered from the hustle and bustle of the city, our garden invites you to relax after the day's excursions and amusements. Here you can recharge your energy and enjoy the sun with a book and your favourite drink in hand.

At the Jardineiro we are committed to presenting plant-based food that is delicious and cosy. Embark on an amazing gastronomic journey with a creative and colourful meatless menu elevated with the ideal wine pairing. We are very excited to have the Chef's signature.

In the winter garden, you will find our cosy restaurant. An elegantly informal space, evoking the spirit of "outside, inside".
