-----------------------	-----

OUR STRENGTHS

Acer's commercial products were made with users' needs in mind: built to be adaptable and suited for diverse work environments and scenarios.

With the evolving needs for modern hybrid working and learning environments, we are committed to delivering a versatile, easy-to-use, and easy-to-manage portfolio suitable for the needs of business and education today, and for overcoming the challenges of tomorrow.

Experience

With more than 40 years of experience in the world of computing, we deliver superior business solutions that best meet customer requirements.

Service

Acer partners and customers receive outstanding assistance, including technical support, a collect-and-return service, updates on the latest technologies, and online trainings.

Reliability

Acer offers a wide range of innovative features and products that are built and tested to last. Our reliability is proven by industry-standard military grade certifications, acknowledged with service awards, and complemented by professional warranty services.

Success

Acer is committed to provide optimized solutions and offerings, seeking maximum mutual benefits among customers, channel partners, and Acer.

Support

Acer supports partners and their customers at all levels and our compelling tools and channel programs are designed to make it easy to work with Acer.

Range

Acer provides channel partners with a comprehensive range of products and solutions designed to deliver the best performance, security, and manageability.

ENVIRONMENTAL, SOCIAL, AND GOVERNANCE (ESG)

Acer engages in ongoing review and promotion of important sustainability issues and strives to incorporate sustainable development policies into daily operations. We have established an ESG governance pipeline for the communication of relevant issues, implementing a variety of resolutions and pursuing stronger governance. We review the overall environment and the expectations of our stakeholders to plan Acer ESG policy and more deeply integrate ESG into our overall value chain to boost ESG performance.

COMMITMENT TO THE UN SUSTAINABLE DEVELOPMENT GOALS

Acer is committed to adhering to the United Nations' Sustainable Development Goals by leveraging its core competencies in technology, products, and services to address societal and environmental needs.

GLOBAL RECOGNITION OF SUSTAINABILITY EFFORTS

Acer's endeavors in developing eco-conscious products and environmental-friendly initiatives have been recognized by worldwide media and design experts, a testament to the fact that these efforts are resonating with industry trends.

Multiple Vero products won the 2022 Good Design Awards: namely the Acer Chromebook Vero 514, the Acer Veriton Vero all-in-one, and the Acer Vero CB3 series monitor. The Aspire Vero laptop added to its growing list of accolades with the 2022 iF Design Award and 2022 Red Dot Award, and was selected as Sustainability Product of the Year by the Business Intelligence Group.

Acer's eco-friendly packaging, film, animation, and Project Humanity campaign designs earned the 2022 Red Dot Brands & Communication Design Award for their creative communication and design excellence.

The award-winning Project Humanity campaign won a Shorty Impact Award in the "Best in Employee Engagement" category. The award celebrates the most impactful and purpose-driven works on digital and social media that make the world a better place.

DOW JONES SUSTAINABILITY INDICES

Member of
Dow Jones Sustainability Indices

Powered by the S&P Global CSA

Acer achieved full marks of 100 as well as scored in the top 100th percentile across various components: Transparency & Reporting, Emissions, Resource Efficiency and Circularity, Waste, Water, Customer Relationship Management

2023 MSCI ENVIRONMENTAL, SOCIAL, AND GOVERNANCE INDEXES

Acer demonstrate strong management practices to mitigate social risks. Acer has been listed on MSCI Indexes since 2014. Acer demonstrates strong initiatives for improving its supply chain labor standards and transparency in sourcing of conflict minerals.

EARTHION

Earthion is the union of 'earth' and 'mission,' highlighting our focus on tackling our generation's greatest environmental challenges through innovative and integrated solutions.

In addition to designing our products to meet the ever-changing needs of businesses and schools, sustainability remains at the forefront of our minds as we seek to provide eco-friendly solutions to all walks of life. To this end, we work with our suppliers towards six specific goals that guide our collective efforts in seeking sustainable solutions for a better tomorrow. With goals ranging from how we design our products to how they're delivered, we provide products and solutions that aim to reduce the tech industry's impact on the environment. And, with your support, we can achieve our monumental goal of leaving behind no carbon footprint.

And, with your support, we can achieve our monumental goal of becoming carbon neutral.

SBTi: Acer's carbon reduction target has been validated by the Science Based Target initiative (SBTi).

SUSTAINABILITY GOALS & MILESTONES

RE100

joined the global RE100 initiative and pledged to use 100% renewable electricity by 2035

48%

renewable electricity usage by Acer Group in 2023

20-30%

PCR (post-consumer recycled) plastic content in computers and displays by 2025

40_M

Over 30 million units used post consumer recycled plastics (2020-2023)

80%

of critical suppliers commit to RE100 or science-based carbon reduction target (SBT) setting by 2025

76%

of critical suppliers completed RE100 or science-based carbon reduction target (SBT) setting

45%

less energy consumption by 2025 (compared with the baseline year of 2016) of Acer products

PRODUCT DESIGN

Acer Vero devices can be recycled and are made with sustainable materials such as post-consumer recycled (PCR) and ocean-bound plastics to reduce their environmental impact from start to finish.

SUSTAINABLE MATERIALS

We work with suppliers to integrate more PCR plastic into our Vero devices.

REPAIRABLE AND UPGRADABLE

Our products are intentionally designed to be easy to disassemble, repair, and upgrade to further extend their lifecycle.

ENERGY EFFICIENCY

We work with partners to continuously reduce energy consumption, improve battery lifespan, and become more efficient.

40M+

Over 40 million units used post-consumer recycled plastics in 2020 to 2023

18.8%

18.8% of post-consumer recycled (PCR) plastics used in computers and displays

No surface paint on specific models. Applied low VOC print on product stickers

PACKAGING DESIGN

The packaging of our Acer Vero notebook employs minimalistic and eco-conscious elements, incorporating 90% recycled paper and post-industrial recycled (PIR) polyester, designed for extended usability.

REDUCING PLASTIC

We work with suppliers to reduce the amount of plastic used in our packaging, such as replacing plastic handles with paper handles.

RECYCLABLE PACKAGING

Our choice of materials and printing method ensures packaging materials can be easily recycled to start a new packaging journey!

90%

Cardboard boxes are made from 90% recycled paper

100%

Molded pulps are made from 100% recycled kraft paper

100%

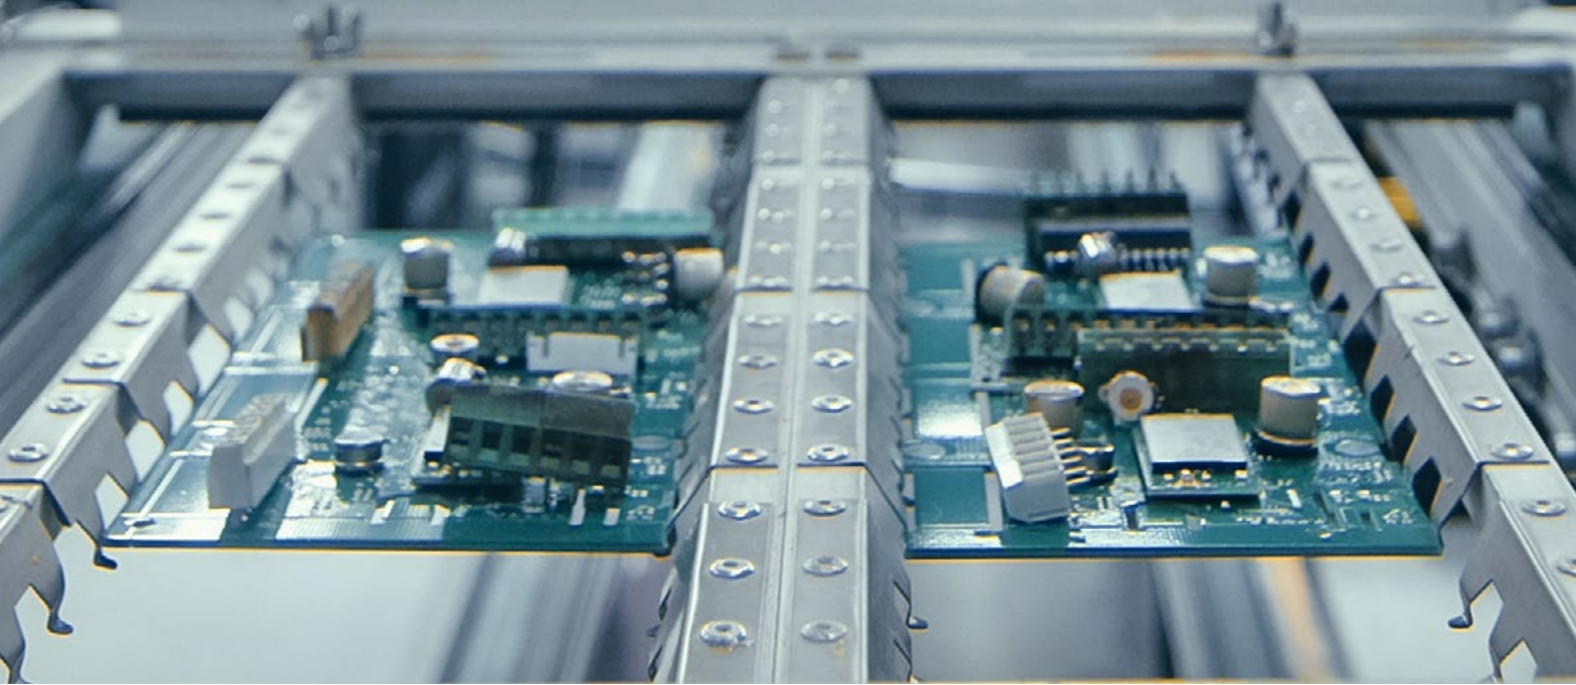

Non-woven fabrics are made from 100% recycled PET

40%

Printed materials are made from 40% recycled paper

Posters are made from FSC certified paper

PRODUCTION

We work with industry partners to rethink the production process and improve chemical and waste management.

WASTE MANAGEMENT

Plastic usage during the manufacturing process is a hidden threat to the environment. Starting with removing plastic bag usage from the power cord production of our products, we also bring changes to our suppliers' manufacturing system.

57.7%

In 2023, 57.7% of our notebook, desktop, and monitor products obtained the ENERGY STAR certificate

20%

In 2023, 20% of our products are EPEAT registered and 10% are TCO Certified

7.1M

In 2023, over 7.1 million of phthalates free products were shipped.

LOGISTICS

Our optimized logistics and transportation allow us to cut unnecessary waste and reduce greenhouse gas emissions.

WASTE REDUCTION AT THE SOURCE

We remove the usage of redundant and unrecyclable security tape from product lines, starting from our monitor lines.

RESPONSIBLE LOGISTICS SYSTEM

We developed a carbon accounting system to optimize the way we do our logistics, so our systems allow for logistics optimization based on our shipment record data.

RECYCLING

Channel and recycling solutions give our products and materials a new purpose at the end of their lives.

PRODUCT RECYCLING

We actively support a variety of measures promoting recycling around the world, along with Individual Producer Responsibility (IPR), and are committed to working with stakeholders including governments, consumers, and channels/retailers to shoulder the responsibility for recycling and managing electronic waste.

Around the world, Acer follows local government standards for various electronic product recycling programs and provides convenient recycling methods for consumers to improve the efficiency of waste recycling in the hope of contributing to resource sustainability.

ENERGY

Our operations use renewable energy such as solar to keep fossil fuels where they belong—underground.

RENEWABLE ENERGY AT OPERATING LOCATIONS WORLDWIDE

The total power generation for the whole year in Acer Group was around 3.8 million kWh. Compared to 2020, this amount is an increase of approximately 450,000 kWh.

SMART CHARGING SOLUTION

Acer subsidiary Acer ITS's charging solution is the first in Asia to launch smart parking charging stations for roadside parking.

61%

61% renewable electricity used in our IT products business operations

14M

We used over 14 million kWh and generated 3 million kWh of renewable electricity in 2023

IT'S TIME FOR POSITIVE IMPACT

ACER VERO

We are all part of a global community - members of an extended family that share a responsibility to respect and protect the environment.

While we continue to push the boundaries of progress and innovation with our products at Acer, we also work to reduce the environmental footprint of our devices. And with our Vero range of devices, we're just getting started.

Acer Vero is more than just another product line up. It's a tangible manifestation of Acer's commitment to more sustainable operations.

Made from PCR plastics to lessen the environmental burden on the planet

VeroSense™ control allow the selection of usage modes that are optimized for energy efficiency and battery life

Upgradable design that's easy to disassemble to simplify repairs, upgrades, and end-of-life recycling

reddot winner 2021 packaging design

100% Recyclable Package

Award-winning 100% recyclable packaging that can be repurposed as a DIY laptop stand

ENERGY STAR and EPEAT communicates environmental performance including power management, materials selection, design for circularity, product longevity and end-of life management

ACER ECO-FRIENDLY PRODUCTS

Our sustainable products are designed to meet today's eco-conscious standards. This means rigorously controlled core material selection, green supply chains in line with international environmental practices, and efficient recycling for products at the end of their lifespan.

We carefully consider waste and energy usage when manufacturing our products to vastly reduce the pollutants and hazardous substances that go into them while ensuring they are easy to recycle.

To reduce the impact of heavy metals on the environment, we recover metals in batteries for reuse in new products. In 2020, we recycled 2.2 tons of waste batteries, in addition to 200kg of CDs and cables, and about 900 units of consumer electronic products from all brands, for a combined estimated reduction of about 12 tons of CO₂ emissions.

With Windows 11 or ChromeOS, we also build cloud-based devices with an overall lower carbon footprint, helping to drive digital transformation towards a more sustainable future.

acertainty

MAKE IT CERTAIN

'acertainty' is the feeling you get when you choose Acer to help your business meet the AI-powered future, knowing you'll have the confidence to be ready for anything and everything that comes next.

The latest Acer TravelMate, an AI PC built for business, lets you run high-compute AI tools while lowering power consumption for tasks with its Intel® Core™ Ultra processor and Intel vPro®, and perform AI tasks across various productivity tools with Microsoft Copilot. And with advanced security features like AI-powered threat detection and multi-layer protection from Intel vPro® and Windows 11 Pro, you can send your workforce out into the world knowing that Acer TravelMate has their back.

Acer's AI PCs for business give your team everything it needs to work productively, collaboratively, and safely – from just about anywhere. So whatever lies ahead, your business can face the future with certainty.

AI-DRIVEN BUSINESS SOLUTIONS

BUSINESS

Business landscapes are constantly evolving, and Acer for Business is at the forefront of this latest AI transformation. Our range of business laptops, desktops, displays, and peripherals are designed to make use of AI-enhanced tools to improve productivity and streamline collaboration, no matter where you're working. Further, with their powerful security features and easy manageability options, Acer for Business devices are designed to keep your business operating securely and efficiently.

ACER TRAVELMATE

Productivity & Collaboration

Get ready to make workflows a breeze. With the latest AI-powered tools and features designed to empower your productivity and collaboration, we fuel the efficiency of your business and ensure that you have all you need to excel in your business.

Sustainability

Acer for Business embraces a future-conscious approach to technology, delivering eco-conscious yet durable designs that feature PCR plastic while also being military grade (MIL-STD-810H) certified.

Security & Manageability

Securely deploy your fleet of Secured-Core PCs with confidence. With the combination of Intel vPro® and Windows 11 Pro, you'll enjoy professional-grade hardware-based PC protection, all-in-one security, remote management capabilities, and more.

SELECT THE RIGHT ACER CHROMEOS DEVICES TO MEET YOUR BUSINESS NEEDS

To select the right device for your cloud workers, it's important to consider what type of work they do, the device form factor, and features they need to be productive at work.

Here are three steps to help you choose the right Acer ChromeOS device for each employee:

1. Identify the primary use case or how the device will be used by your employees: **Standard Workload**, for handling single tasks and/or applications; or **Advanced Workload**, for performing multiple tasks, high productivity, video conferencing, and connecting to multiple displays.

Chromebook Plus is powerful, affordable, and helps your teams do more. Power your workforce, unleash your organization's creativity, and enable offline work from anywhere. Chromebook Plus devices are recommended for Advanced Workload use cases.

2. Map out the device form factors and features that would provide an ideal experience per your worker profile.
3. Contact your Acer representative to explore the most recommended model(s), configurations and availability to fit for the needs of your workforce and organization.

	Frontline	Kiosk/ Signage	Contact Center	Clinician	Knowledge Worker
Standard Workload	Clamshell, Chromebox, Tablets (Detachable), Convertible Preferred features: Ruggedized 12-15" Screen Size	Chromebox, Clamshell Preferred features: Fanless, Dust & Heat Resistant, Ruggedized, 13"+ Screen Size			
Advanced Workload ¹			Clamshell, Convertible, Chromebox, Chromebase Preferred features: Fingerprint Sensor, Backlit Keyboard 13-15" Screen Size	Clamshell, Chromebox, Convertible Preferred features: IP56+rating, Anti-glare Screen, Fingerprint Sensor, High Quality Video and Audio, for telemedicine, Multiple USB-A ports.	Clamshell, Convertible, Chromebox Preferred features: Stylus, Backlit Keyboard, Fingerprint Sensor, 2K+ resolution, Corning® Gorilla® Glass Touchpad, Smart Amplifier, 12-14" Screen Size

1. Chromebook Plus devices are recommended for advanced workloads.

CERTIFIED WORKS WITH CHROMEBOOK

The Works With Chromebook certified Acer Webcam W501 lets you video call confidently. With FHD video quality and 360° rotatability, this webcam for Chromebooks is perfect for conference calls, classes, and working from home.

- Full HD Webcam
- The wide, 82° Lens Angle
- Built-in Omnidirectional Microphone

PARTNER STORIES

OUTLYR TAKES TRAVELMATE LAPTOPS ON THE GOLF COURSE

When Outlyr needed to equip their team with portable, durable, reliable, and easily deployable laptops, they turned to Acer and chose the TravelMate series. Producing more than 300 events each year, such as the ShopRite LPGA Classic Presented by Acer, Outlyr's 60-plus employees must pay close attention to detail.

To keep events flowing smoothly, the Outlyr team used TravelMate devices to input information in real time so that tee times, games, and other changes could be updated automatically and give everyone precise and up-to-date details.

The lightweight TravelMate laptops are easy to carry and use on the golf course, and their impact- and weather-resistant design stands up to the wear and tear of regular outdoor use. They have enough battery life to get through a long day without access to power, the latest processors to ensure fast performance, advanced security to enable secure operation, and Thunderbolt and USB-C ports to allow pairing with other devices.

"Knowing that we have computers that we can trust and rely on, and not have to always worry about things breaking down ... is very important to us," said Jen Tierney, Senior Director at Outlyr.

The growing team at Outlyr trusts Acer. And paired with the TravelMate series, they're well-equipped to pull off events without a hitch and uphold their reputation for meticulous planning and flawless execution.

PARTNER STORIES

ACER POWERS A LEADING ASIA PACIFIC AUTOMOTIVE PART SUPPLIER

GPC Asia Pacific is a leading provider of aftermarket car parts with a strong presence in Australia and New Zealand, supplying prominent businesses such as Repco, NAPA, Sparesbox, AMX Superstores, and more. The company's scale, buying power, and unmatched logistics make GPC Asia Pacific a leader in the region, with annual sales of more than AUD 1.5 billion. With close to 100 years of operational experience, the largest store footprint in the industry, and a customer-focused genuine service ethos, GPC Asia Pacific needed to ensure it was also delivering exceptional customer service with the latest, industry-leading technology.

Acer has been a vital hardware supplier for GPC Asia Pacific since 2016 and has provided the car parts supplier with a variety of high-performance notebooks, desktops, and monitors - with the versatile TravelMate P6 Spin 14 being the most recent example.

Not limited to only providing industry-leading hardware, Acer also offers various managed services in the form of pre-loading SOE images via domain links, applying asset tags, deployment, and disposal of assets. Throughout the relationship with GPC Asia Pacific, Acer has assisted over 550 different sites across Australia and New Zealand.

INSPIRE POTENTIAL

WHY ACER?

Our goal is to bring evolving technologies to schools and institutions to foster meaningful, inclusive, and engaging learning experiences.

DESIGNED FOR EDUCATION

Our devices are made to elevate in-person, remote, and hybrid learning experiences so we can foster collaboration, creativity, and engagement in the classroom and beyond.

RELIABLE PARTNERSHIPS

Collaboration with partners is critical for addressing the needs of schools. We empower our partners with access to support and resources to deliver tailored solutions to end customers.

FUTURE-PROOF SOLUTIONS

Acer seeks to provide immersive, inclusive and engaging learning experiences with future-proof technologies - offering an alternative for soft skill development and STEM studies.

PREMIUM SERVICES

Acer Smart Financing's monthly subscription-based model and Acer Care Plus' comprehensive set of services allow schools to minimize upfront costs while maximizing their ROI.

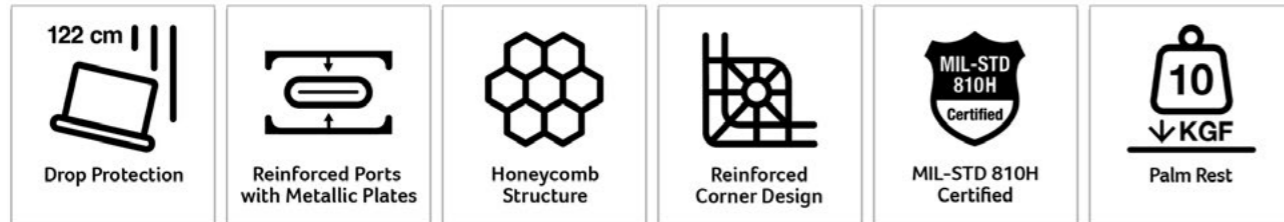

ACER FOR EDUCATION RUGGED SOLUTIONS

Classrooms are a busy place, and Acer's rugged devices are designed to keep both students and teachers focused on learning with peace of mind.

Built Tough

Durability is at the forefront of our designs. With reinforced corners and honeycomb interior design, our devices deliver resilient performance when subjected to the even the harshest of drop tests.

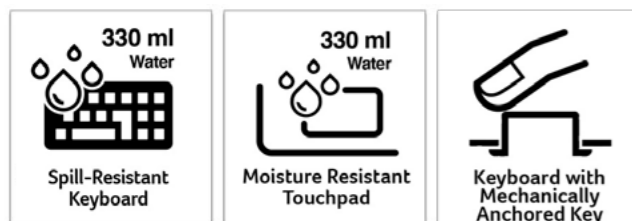

Resilient Display

Our durable displays are designed to resist the kind of impacts and scratching that happen in the busy classrooms.

Dependably Designed

With moisture resistant touchpads and keyboards as well as mechanically anchored keys, our rugged devices offer schools a dependable choice that they can rely on.

1. Widened brackets feature limited to Acer Chromebooks for Education

TravelMate B5 14

REIMAGINE THE WAY YOU LEARN

The high-performing and ultra-durable TravelMate B5 14 will boost your learning experience with its optional 14" FHD display¹, serviceable keyboard with mechanically anchored keys, and HD webcam with camera shutter.

Up to 12th Gen Intel® Core™ i3-305 Processor¹

14" Full HD (1920 X 1080) Display

Screen Distance & Break Reminder Software

Military Grade (MIL-STD-810H) Durability

1. Specifications vary depending on model and/or region.

TravelMate B3 Spin 11

TravelMate B3 11

TravelMate B3 Spin 11

A SENSE FOR DYNAMIC LEARNING

Optimize the flipped classroom experience with the TravelMate B3 Spin 11. This good notebook for school features an optional 11.6" FHD touch display¹, webcam with webcam privacy shutter, and optional dockable Wacom AES stylus.

-  Latest Intel® Processor N-series¹
-  11.6" FHD (1920 X 1080) Touchscreen Display¹
-  Military Grade (MIL-STD-810H) Durability
-  Equipped with Dockable Wacom AES Stylus

SELECTING THE RIGHT ACER CHROMEBOOK FOR YOUR SCHOOL, STAFF AND STUDENTS

To select the right device for your school, staff, and students, it's important to consider what device usage do they get, and which user profile are they.

1. Identify the device usage: **Learning Anywhere (classroom and distance learning devices), Advanced Use (teacher, staff, higher education and high school devices)**
Chromebook Plus devices are made for teachers, staff, and higher-level classes with heavy workloads. They are designed for ease of use and optimized security, and are ideal for high-performance tasks like content creation, coding, and juggling tons of tabs.
2. Map out the user profile: **Grade 1-8, Grade 6-12, Teacher / Staff / Higher Education**, and select your preferred device form factors, screen size and features
3. Contact your Acer representative to explore the most recommended model(s), configurations and availability to fit for the needs of your school, staff and students.

1. Chromebook Plus devices are recommended for advanced use.

Chromebook 314

BUILT FOR THE CLASSROOM

Enhance the learning experience with the efficient and reliable Acer Chromebook 314. This Chromebook for schools features a 14-inch FHD display, a serviceable keyboard with mechanically anchored keys, and an optional Full HD webcam featuring a built-in camera shutter.

Intel® Processor N200¹

14" Narrow Bezel Anti-Glare FHD Display²

Military-Grade (MIL-STD-810H) Durability^{3,4}

Optional Full HD Webcam with Temporal Noise Reduction & Face Auto Exposure Technologies

1. Specifications may vary depending on the model and/or region.
2. Narrow bezel referring to the left and right bezels
3. MIL-STD 810G/H is a testing protocol conducted in controlled settings and does not guarantee future performance in all situations. Do not attempt to simulate these tests, as damage resulting from this will not be covered by Acer's standard warranty.
4. All scenes and situations shown in this document are for illustration purposes only. Acer does not recommend attempting to test or use the devices as demonstrated, as damage resulting from these actions will not be covered by Acer's standard warranty.

Chromebook 311

GET INSPIRED

Take your educational journey to new heights with this dependable school companion by your side. Immerse yourself in the brilliance of a 14" HD display, experience comfortable notetaking with the keyboard, and seamlessly connect to your online classes using fast WiFi.

PARTNER STORIES

ACER SPATIALLABS: INTRODUCING IMMERSIVE LEARNING AT BISKUPSKÉ GYMNÁZIUM

Immersive learning, advancing education through heightened engagement, was once limited by cost and equipment. Acer's accessible SpatialLabs technology now democratizes this experience.

Biskupské Gymnázium v Ostravě in the Czech Republic, an episcopal school founded in the '90s, leads the way in integrating Acer's 3D devices into classrooms. Their October 5 event showcased Acer devices with SpatialLabs displays, offering intuitive interaction and immersion without 3D glasses.

Acer's solution includes 16 Predator Helios 300 SpatialLabs laptops, a custom charging box, Acer Classroom Manager software, customized furniture, and Wi-Fi 6 infrastructure. SpatialLabs combines eye-tracking, stereoscopic 3D display, real-time rendering, and AI, enabling dynamic presentations and enhancing engagement.

Educators at Biskupské Gymnázium aim to leverage 3D technology to enhance learning across subjects and cultivate spatial imagination. As pioneers in 3D education, Biskupské Gymnázium sets a precedent for immersive learning experiences.

ICT IN EDUCATION: THE PARTNERSHIP BETWEEN VARIETAS FOUNDATION AND ACER

Adapting to the digital era presents a key challenge in modern education. Varietas Foundation, operating across 30 locations in the Netherlands, prioritizes innovation in response. Recognizing the significance of technology in learning, Varietas partnered with Acer to integrate ICT into teaching activities, enhancing students' digital literacy.

Acer's TravelMate Spin B3 laptops were chosen, providing 4,500 devices to grades 5 to 8 over five years. At De Vijf-er Primary School, part of Varietas, laptop carts await students daily, showcasing Acer's commitment to innovation and sustainability. The TravelMate Spin B3 offers versatility with a 360-degree hinge, world-facing camera, HD touch screen, and dockable Wacom pen.

Teachers praise the laptops for streamlining workload management and improving class dynamics. Immediate access to assignment results aids in student support and evaluation. Acer's user-friendly design and durability resonate with both students and staff, emphasizing the seamless integration of technology into modern education.

POHJOISKEHÄ SCHOOL & ACER CHROMEBOOKS: EMPOWERING EDUCATORS AND STUDENTS

Technology revolutionizes education, with Acer Chromebooks standing out as vital tools in modern classrooms. Pohjoiskehä School in Rauma, Finland, showcases their transformative impact, integrating them seamlessly into daily teaching practices.

Acer Chromebooks have become essential companions for teachers, facilitating engaging lessons with their intuitive interface and powerful Intel® processor. They enable collaboration, file sharing, and real-time feedback, enhancing productivity and efficiency. Students benefit from collaborative learning through integrated Google Docs and Slides, fostering creativity and peer support. With diverse apps catering to various subjects and learning styles, Chromebooks offer endless possibilities for interactive projects and assignments.

The tangible impact on learning outcomes is evident, with increased engagement, collaboration, and retention reported by teachers. The integration with Google Workspace ensures accessibility and continuity of learning, both in and outside the classroom.

Pohjoiskehä School's experience highlights the transformative potential of Chromebooks in education, paving the way for a future where technology plays a central role in shaping learning experiences.

ACER CHROMEBOOKS AT NEW ENGLISH SCHOOL KUWAIT: DIGITAL TOOLS FOR SCHOOLS

Founded in 1969 by Mr. Tareq and Jihan Rajab, New English School Kuwait emphasizes academic excellence, student opportunities, and community sustainability. With 2,200 students, it chose Acer Chromebooks to integrate technology, showcasing its dedication to innovation.

Managed by the Rajab family, the school offers a British-style curriculum, with 1,650 students currently benefiting from Chromebooks. Principal Richard Marchant lauds improved administration, while teachers like Judy Hegazy appreciate organizational apps like Google Calendar. Educators utilize Chromebooks to enhance teaching methods and promote student engagement, leveraging digital tools like Google Slides and AI assessments.

New English School Kuwait prioritizes sustainability, aligning with Chromebooks' eco-friendly features, reflecting its commitment to a sustainable community. As schools globally adopt Acer Chromebooks, each discovers tailored benefits, highlighting the devices' adaptability and innovation in education.

ACER AND ESPORTS WALES: A PARTNERSHIP FOR GROWTH

Esports Wales is the driving force behind the development of the esports scene in Wales. From grassroots initiatives to professional-level support, the organization nurtures talent and fosters a thriving community of nearly 3,000 gamers and counting. This is achieved through tournaments, community events, educational workshops, and the management of the national team.

Acer's reputation for excellence in gaming hardware, coupled with its unwavering commitment to supporting esports at all levels, made it a natural partner for Esports Wales. The Acer Nitro 5 laptop, in particular, has emerged as a game-changer for Esports Wales' operations. Its portability has enabled the organization to host events across the country, reaching gamers in both urban centers and rural communities. From community gatherings to international team practice sessions, the Acer Nitro 5 has proven to be an indispensable tool for facilitating Esports Wales' diverse range of initiatives.

Moreover, the Acer Nitro 5's versatility has extended beyond competitive gaming to encompass educational workshops on streaming and esports production. This has opened up new avenues for aspiring content creators and broadcasters, further diversifying the skill sets within the Welsh esports community.

Reflecting the organization's confidence in the Acer Nitro 5 and its ability to meet the needs of both casual gamers and aspiring professionals, Esports Wales enthusiastically recommends it to anyone venturing into the world of esports or seeking a high-quality gaming experience on the go.

PROJECTOR SOLUTIONS FOR ANY BUSINESS VENUE

Acer projectors combine brilliant displays, high resolutions, and color enhancing features to deliver crystal clear visuals and exceptional brightness and contrast ratio in any venue.

LASER LIGHTING TECHNOLOGY

The up to 6,000 lumens generate crisp and vivid images even in bright and large environments, while guaranteeing high image quality. Unlike lamp-based projectors that block most of the light and leave only RGB, laser creates only the exact color needed, meaning it uses less power and is much brighter. 50% of power is saved compared to lamp-based projectors, while generating the same level of brightness. Laser is also a mercury-free light source.

LED LIGHTING TECHNOLOGY

LED lighting lets you enjoy outstanding color performance with up to 125% Rec. 709 wide color gamut, creating vibrant visuals and delivering consistent color saturation. Its greater durability provides a lifespan of up to 30,000 hours. In addition, by eliminating the potential pollution from mercury lamp disposal, your projector is free from environmentally hazardous substances.

WHY ACER VERO PROJECTOR?

We all deserve a Cleaner, Greener, Earth. The “Green But Mean” Vero projectors are equipped with advanced laser and LED light technology, a 30,000-hour lifespan, and up to 50% energy-saving efficiency, offering an excellent choice for daily work and entertainment. These mercury-free projectors also incorporate green materials by using up to 50% post-consumer recycled (PCR) plastic in the chassis. The Acer Vero Series projectors also support 24/7 non-stop projection, providing users with reliable and high-quality performance even for prolonged periods. Acer develops energy-efficient projectors with low environmental impact and looks forward to the sustainable future.

LED Projector

LAMP FREE, MERCURY FREE, MAINTENANCE FREE

Acer LED projectors provide brilliant image quality with Acer Colorboost LED technology. It reach full-brightness almost immediately upon being turned on, eliminating delays at the beginning of meetings, and this brightness is long lasting. This durability makes the LED projectors capable of being used under any ambient lighting, and combined with a 30,000-hour lifespan, they require remarkably little maintenance.

Acer Vero PD2527i

Acer Vero PD2527i

FROM PRODUCTION TO RECYCLING,
SUSTAINABILITY IS NUMBER ONE.

Acer develops lightweight, slim, energy-efficient projectors with low environmental impact. Thoughtfully designed to adapt to the planet's needs, we use 50% PCR¹ plastic in the chassis, higher efficiency than lamp model with up to 50% energy saving² on Acer Vero PD2527i. The Acer Vero PD2527i features 2,700 lumens with LED light source, LED is a Lamp-free technology eliminates the use of projector lamps containing mercury to help protect the environment. Acer Vero PD2527i brings presentations to life and keeps your meetings focused with clarity and precision. Its high contrast ratio and LumiSense feature enable presenting data with a clearer and sharper edge. It is also equipped with BlueLight Shield that mitigates the negative effects of blue light exposure.

-  1080p Resolution
-  Acer Colorboost LED
-  2700 ANSI Lumens

1. PCR stands for 'Post-Consumer Recycled'.
2. Specifications may vary depending on model and/or region. Energy efficiency is in competition by LED model Acer Vero PD2527i and lamp model Acer G550.

Acer Vero PD2327W

FROM PRODUCTION TO RECYCLING,
SUSTAINABILITY IS NUMBER ONE.

Vero PD2327W uses LED light source provides up to a long 30,000-hour lifespan and results in approximately 50% energy savings and makes it not only more eco-friendly, but also reduces the total cost of ownership. With a high 2,000,000:1 contrast ratio, a 3,200 lumens and WXGA (1280 x 800) resolution, Vero PD2327W projects presentations with clarity and precision. It also supports an extended 120% REC 709 wide color gamut delivering outstanding color saturation, integrated BlueLightShield supports blue light filter and 24/7 continuous use for public displays or museum exhibition.

-  WXGA Resolution
-  Acer Colorboost 3D
-  3200 ANSI Lumens

1. Specifications may vary depending on model and/or region.
2. Energy efficiency is in competition by LED model Acer Vero PD2327W and lamp model Acer G550.

Laser Projector

LONG LASTING, BEAUTIFUL & BRIGHT, LOW TCO

Acer laser projectors deliver a bright and immersive experience perfect for conference rooms, and classrooms. Laser phosphor illumination uses only a blue laser diode, combining phosphor and filter wheel, to generate primary colors. These colors are then directed to DLP chip, go through lens and create images on screen. Unlike lamp-based projector that blocks most of the light and leave only one color a time, laser creates only the exact color needed, thus using less power and is much brighter with life up to 30,000 hours¹. Up to 50% of power are saved compared to lamp-based projector to generate same level of brightness. In short, Acer laser technology is your better choice for you choosing high brightness projector.

Acer Vero PL3510ATV

PL3510ATV

ENERGY EFFICIENT, SMART, AND EASY TO SET UP

Vero PL3510ATV projector is designed to equip businesses with high-performing, power-saving technology while providing more options to reduce their carbon footprint. It is built with a Full HD resolution, 5,000 ANSI lumens diode, and a up to 30,000-hour lifetime for long-lasting brightness. The laser power-saving design saves up to 48%^{**} more energy. Thanks to the inclusion of Google-certified Android TV system^{***}, the PL3510ATV boosts the versatility on both work and play. In line with Acer's Earthion platform, it is integrated with 50% PCR plastic on chassis and utilize 100% recyclable packaging.

-  1080p Resolution
-  Smart Projector
-  Wireless Projection
-  5000 ANSI Lumens

1. PCR stands for 'Post-Consumer Recycled'.
 2. Specifications may vary depending on model and/or region. Energy efficiency is compared with lamp-based projectors with similar brightness level.
 3. An Android TV dongle is required. The dongle comes as standard.

THE BEST SOLUTIONS TO WORK AND SHOWCASE YOUR IDEAS

DISPLAY

Without the best display, brilliant ideas cannot come to life. Acer's displays are meant to help you create your best work and showcase it effortlessly and beautifully. Be bold and create the next big idea, presentation, or design-- and leave the rest to us.

ACER DOCKING DISPLAY

Docking displays create a complete and clutter-free workspace so you only have to set up once. Boasting USB-C functionality, these displays come with a variety of features that let you effortlessly transition your laptop from a work to a home environment without the need of transferring files or the hassling with cloud storage.

ACER VISION CARE™

Acer Vision Care helps reduce eye strain and provides a more comfortable viewing experience. Acer Vision Care incorporates several features including BlueLightShield Pro, Lightsense, ColorSense, and Proxisense that take into consideration prolonged usage by heavy users such as programmers, writers, and graphic designers to reduce eye strain.

ECODISPLAY FOR SUSTAINABILITY

For Acer, embracing corporate sustainability means being a successful worldwide IT company with triple-bottom-line achievement in terms of well-balanced performance economically, environmentally, and socially. Acer actively works to fulfill its corporate responsibility by protecting the environment and helping advance global society with emphasis on Epeat, TCO, and Energy Star guidelines.

-  TUV/Eyesafe® Certified

THE IMPACT OF 3D REDEFINED

Acer SpatialLabs™ View Pro Devices

Acer SpatialLabs View Pro 27

A REVOLUTIONARY DIMENSION IN IMMERSIVE VISION

The Acer SpatialLabs View Pro 27 is an amazing canvas for creators and developers. It transforms their ideas into boundless and lifelike 3D worlds without the need for glasses. With Acer SpatialLabs technology ideas don't just take shape—they leap out in crystal-clear focus. From intricate designs to expansive landscapes, every detail is magnified, every concept is amplified, and every dream is just a touch away from reality.

- Immersive 3D Brilliance: 27" Ultra HD, Delta E < 2, 160Hz
- Perfect in Any Setting: Optimized 3D for Extremely Low Light
- State-of-the-Art Spatial Sound with Acer Immerse Audio
- Empowering Designer and Developers with SpatialLabs
- Experience Center Pro Apps and Tools

Acer SpatialLabs View Pro

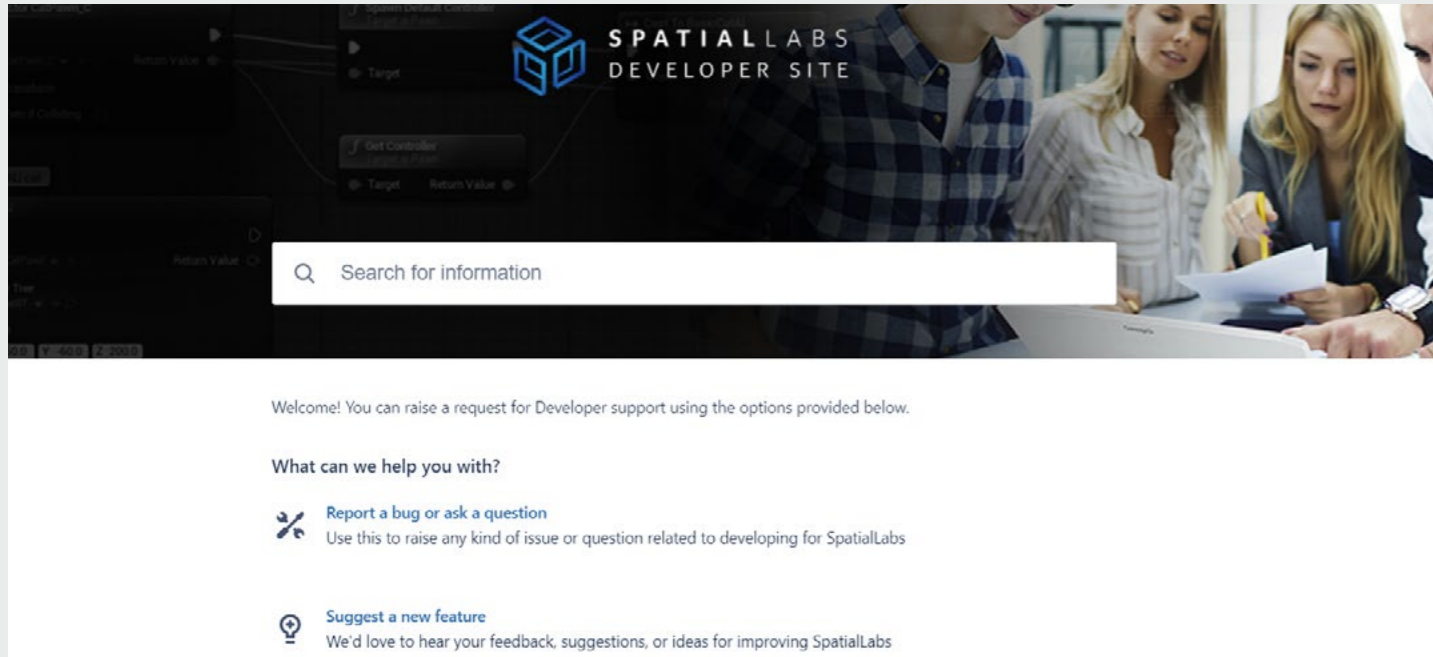

THE IMPACT OF 3D REDEFINED

Experience Center Pro lets you reimagine the ideation and presentation potential in a new 3D realm. The stereoscopic 3D experience reveals more information and leads creators to sharper insights as they dream-up and express their concepts in eye-thrilling stereoscopic 3D. The elimination for the need of cumbersome eyewear empowers developers, marketers, and educators to enchant their audiences with more sense-tingling stories in a more immersive and accessible way.

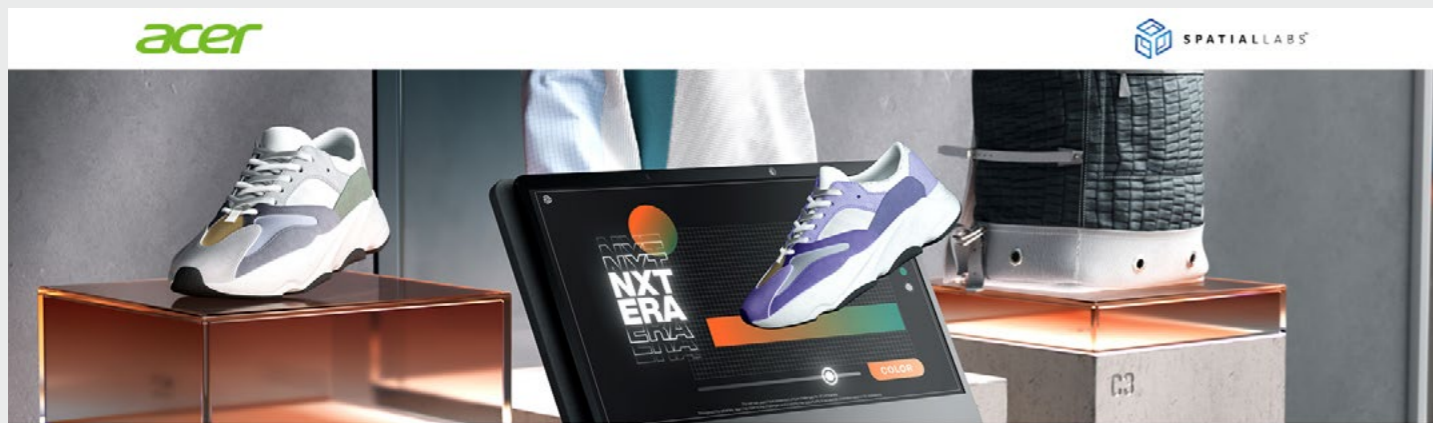

- Developer Friendly Form Factor for Commercial Spaces
- Additional Software Support through Datasmith and SpatialLabs Model Viewer
- Sketchfab Integration to View 3D Models in Stereoscopic 3D
- Unreal Engine Plug-in and Developer Support

PARTNER STORIES

SPATIALLABS REVOLUTIONIZES OPHTHALMOLOGY

The Royal College of Ophthalmology recognized the potential of 3D technology to transform consultations, teaching, and surgical precision. But traditional solutions were bulky and expensive. Acer's SpatialLabs™ View Pro changed the landscape with its portable, glasses-free 3D display.

The technology provides crucial depth perception for eye surgery and unmatched realism in ophthalmic training. Remote consultations also become more insightful. The College now uses SpatialLabs for simulated surgeries with 3D-equipped microscopes, capturing unparalleled detail for training. Clinicians review clinical videos and conduct live exams in 3D, improving patient outcomes.

Beyond the clinic, Acer SpatialLabs holds immense promise. Its immersive 3D experience offers exciting possibilities for industries such as gaming and product design.

SMARTER SOLUTIONS, BETTER SECURITY & MANAGEABILITY

Define the future. For those who can drive change, it's our responsibility to guide the next steps. At Acer, we have the technology and solutions to help you be the best you can and pave the way forward together.

MILITARY GRADE RELIABILITY

High and Low Temperatures

Tested to ensure performance across all temperatures ranging from -32°C to 49°C for over 8 hours.

Humidity

Tested devices are subjected to cycles of humidity ranging from 58% to 88% over a period of 24 hours.

Drop Test

Devices are dropped 26 times from a height of 122cm (48 inches) onto each corner, side, and panel onto a 2-inch thick surface of plywood. Devices are inspected for any damage after each drop.

Rain

Devices are tested against rain exposure, subjected to water sprays from a specified height and inspected for damage afterwards.

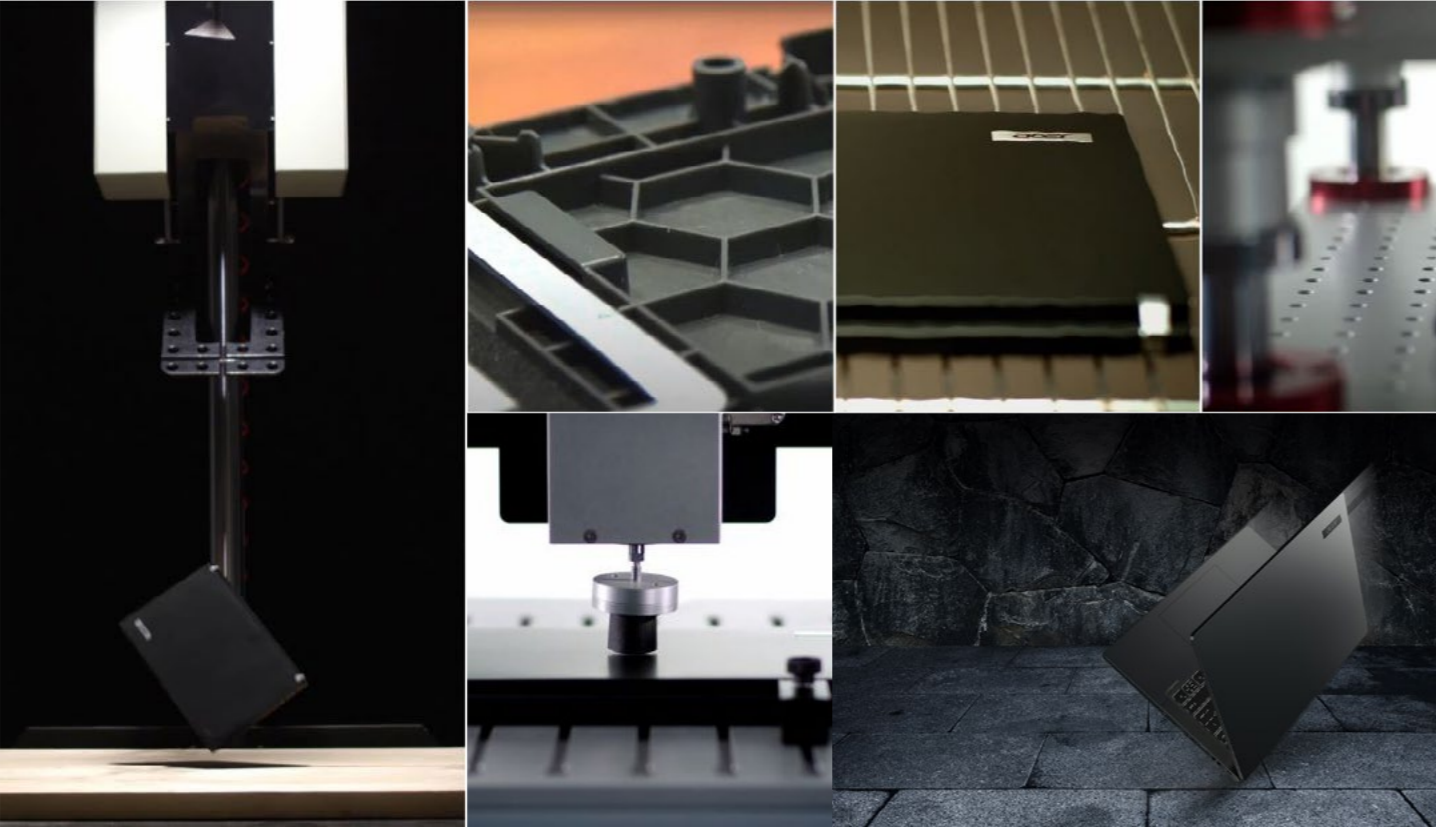

Vibration Test

Devices were subjected to vibrational testing to ensure that all materials would be able to endure transportation and handling.

Shock Test¹

Devices and their components are tested for their resistance to exposure to dry, blowing sand as well as how they perform in dust-laden atmospheres.

1. Tested on specific models only. See individual product pages for details.

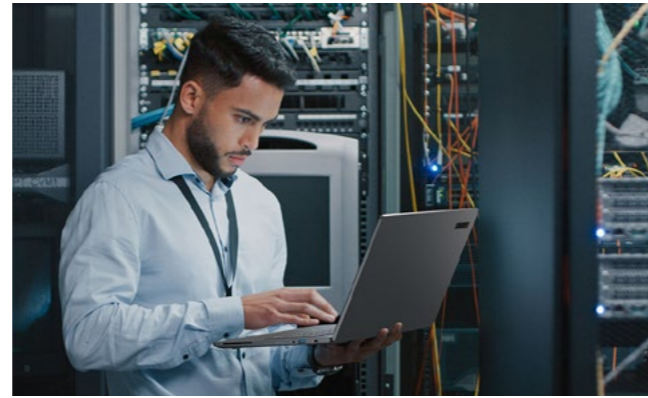

THE POWER TO DO MORE WITH INTEL PROCESSORS

With optimized performance and AI-powered security, Acer devices powered by the Intel vPro® all-in-one business PC platform enhance collaboration and boost business growth.

Enhanced AI Performance

Ensure your business is ready for what's next using Intel® Core™ Ultra processors and Intel vPro®, which are designed with AI-boosted performance and security features.

Simplified Manageability

Intel vPro® empowers your IT team with tools that allow them to discover, diagnose, repair, or retire PCs from virtually anywhere, all while boosting sustainability initiatives by cutting down on the environmental impact associated with PC maintenance and repair.

Multilayered Security

AI-powered security capabilities can help detect threats at the hardware level, including ransomware, cryptojacking, and software supply chain attacks (even before they happen) with Intel® Threat Detection Technology.

Greater Stability

Maintain your fleet, scale confidently, and transition from one OS generation to the next—all on your schedule. Rigorous hardware component testing ensures all Intel vPro® devices deliver a reliable, seamless, professional-grade experience.

Intel vPro®

**WINDOWS
SOLUTIONS**

SECURITY

Acer User Sensing¹

Protect your on-screen data with Acer User Sensing technology. The built-in ToF sensor allows for accurate detection of people based on range and movement, locking the screen when you leave and allowing you to log back in quickly when you return.

Acer PrivacyPanel¹

Acer PrivacyPanel technology protects against prying eyes and helps keep the information on your display private. When activated, it obscures viewing angles beyond 90°, and can be switched off to make use of full viewing angles to share and collaborate.

1. Feature limited to select models only.

Acer ProShield Plus

Featuring file encryption, shredding, Windows Hello authentication, and more, Acer PCs loaded with Acer ProShield Plus deliver an all-in-one security solution that helps secure against unauthorized access and intrusion.

Windows Secured-core PC

Windows Secured-core PCs from Acer offer the highest level of protection that prevents unauthorized access to the device, enables secure booting, protects from firmware vulnerabilities, and more.

PRODUCTIVITY

Acer PurifiedVoice™¹

Acer PurifiedVoice ensures clear communication by using AI technology to reduce background noise. With up- and downlink noise suppression, it enables clearer audio for both ends of the call, allowing you to speak confidently and listen better.

Acer DustDefender¹

Improve device longevity and maintain maximal performance with Acer DustDefender. This feature expels dust from fans when powering on your device and after every 6 hours of use, reducing dust buildup in your devices so that they always perform at their best.

TravelMateSense

Preloaded on TravelMate laptops, TravelMateSense lets you manage and customize your PC with ease. Activate customized workflows with a click, enjoy enhanced device security with Secure Guard, monitor system health, and flexibly adjust device settings.

¹. Feature limited to select models only.

MANAGEABILITY

Acer Commercial BIOS

Simplify the device management experience with a GUI BIOS. We ensure devices remain optimized and secure with features such as diagnostic and system testing tools, USB device management, system self-healing capabilities, and more.

Acer Office Manager

Acer Office Manager (AOM) is an endpoint management solution that simplifies device management for small businesses without dedicated IT staff, enabling offices without dedicated IT staff to efficiently poll device data, deploy security policies, and monitor IT assets.

Windows AutoPilot

By allowing IT personnel to pre-configure devices in the cloud before they arrive in the end-users' hands, Windows AutoPilot saves time and cost by streamlining the out-of-the-box experience for end-users in enterprises or large educational organizations.

WINDOWS 11 FOR BUSINESS

Achieve More with Less Effort

Do more, quicker than ever across multiple applications with the centralized generative AI assistance of Copilot in Windows 11 Pro. Accessible at the touch of a button with the Copilot Key.

AI-Enhanced & Easy to Use

Acer for Business Windows 11 Pro devices are easy to use and manage, with AI-enhanced efficiency and compatibility with existing technology including mission-critical apps and hardware.

Breakthrough Productivity

Simplify your workday and improve productivity with Windows 11 Pro. With AI-powered experiences, intelligent workflows, and unmatched personalization, you can do it all on your Windows 11 Pro device.

Most Secure Windows Ever

You can focus on your business when you put security at the core. Discover why organizations report a 58% drop in security incidents with Windows 11 Pro devices¹.

1. Windows 11 Survey Report. Techaisle, February 2022. Windows 11 results are in comparison with Windows 10 devices.

WINDOWS 11 FOR EDUCATION

Unlock the power of creativity and collaboration

The most secure, accessible Windows for learning in the classroom and beyond.

Inclusive by design

Each student gets the resources and support they need to reach their full potential.

Secure and scalable IT

Easily scalable solutions that safeguard students, teachers, and schools from cyberthreats, no matter where they are, now and in the future.

More value to advance learning

Students require knowledge, tools, and skills to succeed at school, in their career, and beyond. Gain performance on affordable devices that are built for education.

MICROSOFT COPILOT

Select Acer for Business devices come loaded with Windows Copilot, your new AI assistant that promises to enhance your creativity and productivity.

Amplified Creativity

Transform your business, unleash creativity, and get things done. Windows Copilot transforms written content into compelling pitch decks and presentations with a single command.

Trusted Security

Stay in control with Windows Copilot, which adheres to Microsoft 365 security, compliance, and privacy policies. Your data also stays secure and private, while delivering accurate and relevant answers for your work.

Supercharge Efficiency

Achieve more with less time and work. Partner with Copilot to write, edit, and summarize content to deliver breakthrough productivity and immersive workflows that will elevate performance.

LEARNING ACCELERATORS

Experience New and Unique Ways to Learn and Teach in the Modern Classroom with Acer TravelMate & Learning Accelerators

Rethink Education

Break free of ordinary and traditional classrooms. Acer TravelMate laptops with Windows 11 and Microsoft Learning Accelerators are ready to meet the demands of new and unique learning experiences such as in-person, remote, or flipped classroom scenarios.

Unlock Student Potential

Unlock the full potential of every student with tools that support foundational and future-ready skills. These Learning Accelerators provide teachers with the data to empower and guide students towards academic success.

Build Essential Skills for Students

Seamlessly integrated into applications such as Microsoft Teams, OneNote, PowerPoint, Word, and more, Learning Accelerators are powerful tools that give students more opportunities to learn and practice right away, while receiving targeted coaching at the same time.

Protect Users and Their Devices

Together with Microsoft 365 built-in security features and cloud-powered intelligence, Acer TravelMate laptops are not only ruggedly designed, but are also capable of securing sensitive data of students and teachers.

ChromeOS

AN OPERATING SYSTEM BUILT FOR HOW YOU WORK

The cloud-first operating system at the core of every Chromebook, designed to simplify management and free up IT.

Optimized for how you work

Built around Chrome browser, which is the principal user interface.

Highly secure

Updates automatically, with built-in security to keep your business safe.

Reliable

Linux-based operating system designed by Google ensures stability, inherent security, and efficient resource management.

CHROME ENTERPRISE UPGRADE

CHROME ENTERPRISE UPGRADE

Quickly deploy, manage, and secure ChromeOS devices with 24/7 support from Google

Drop ship devices

Drop ship devices directly to employees ready to be signed in with zero-touch enrollment.

Reporting and Insights

Pull insightful reports including 7-day active metrics, OS versions, and crash reports.

Advanced security

Remotely wipe or disable devices, force re-enrollment, and enable sign in restrictions to ensure data stays in the right hands.

Granular device controls

Enable single-sign on, identity-free login, and configure printers and Wi-Fi networks.

Manage updates at your own pace

Choose to roll out feature updates gradually or automatically with the added option for long-term support channel.

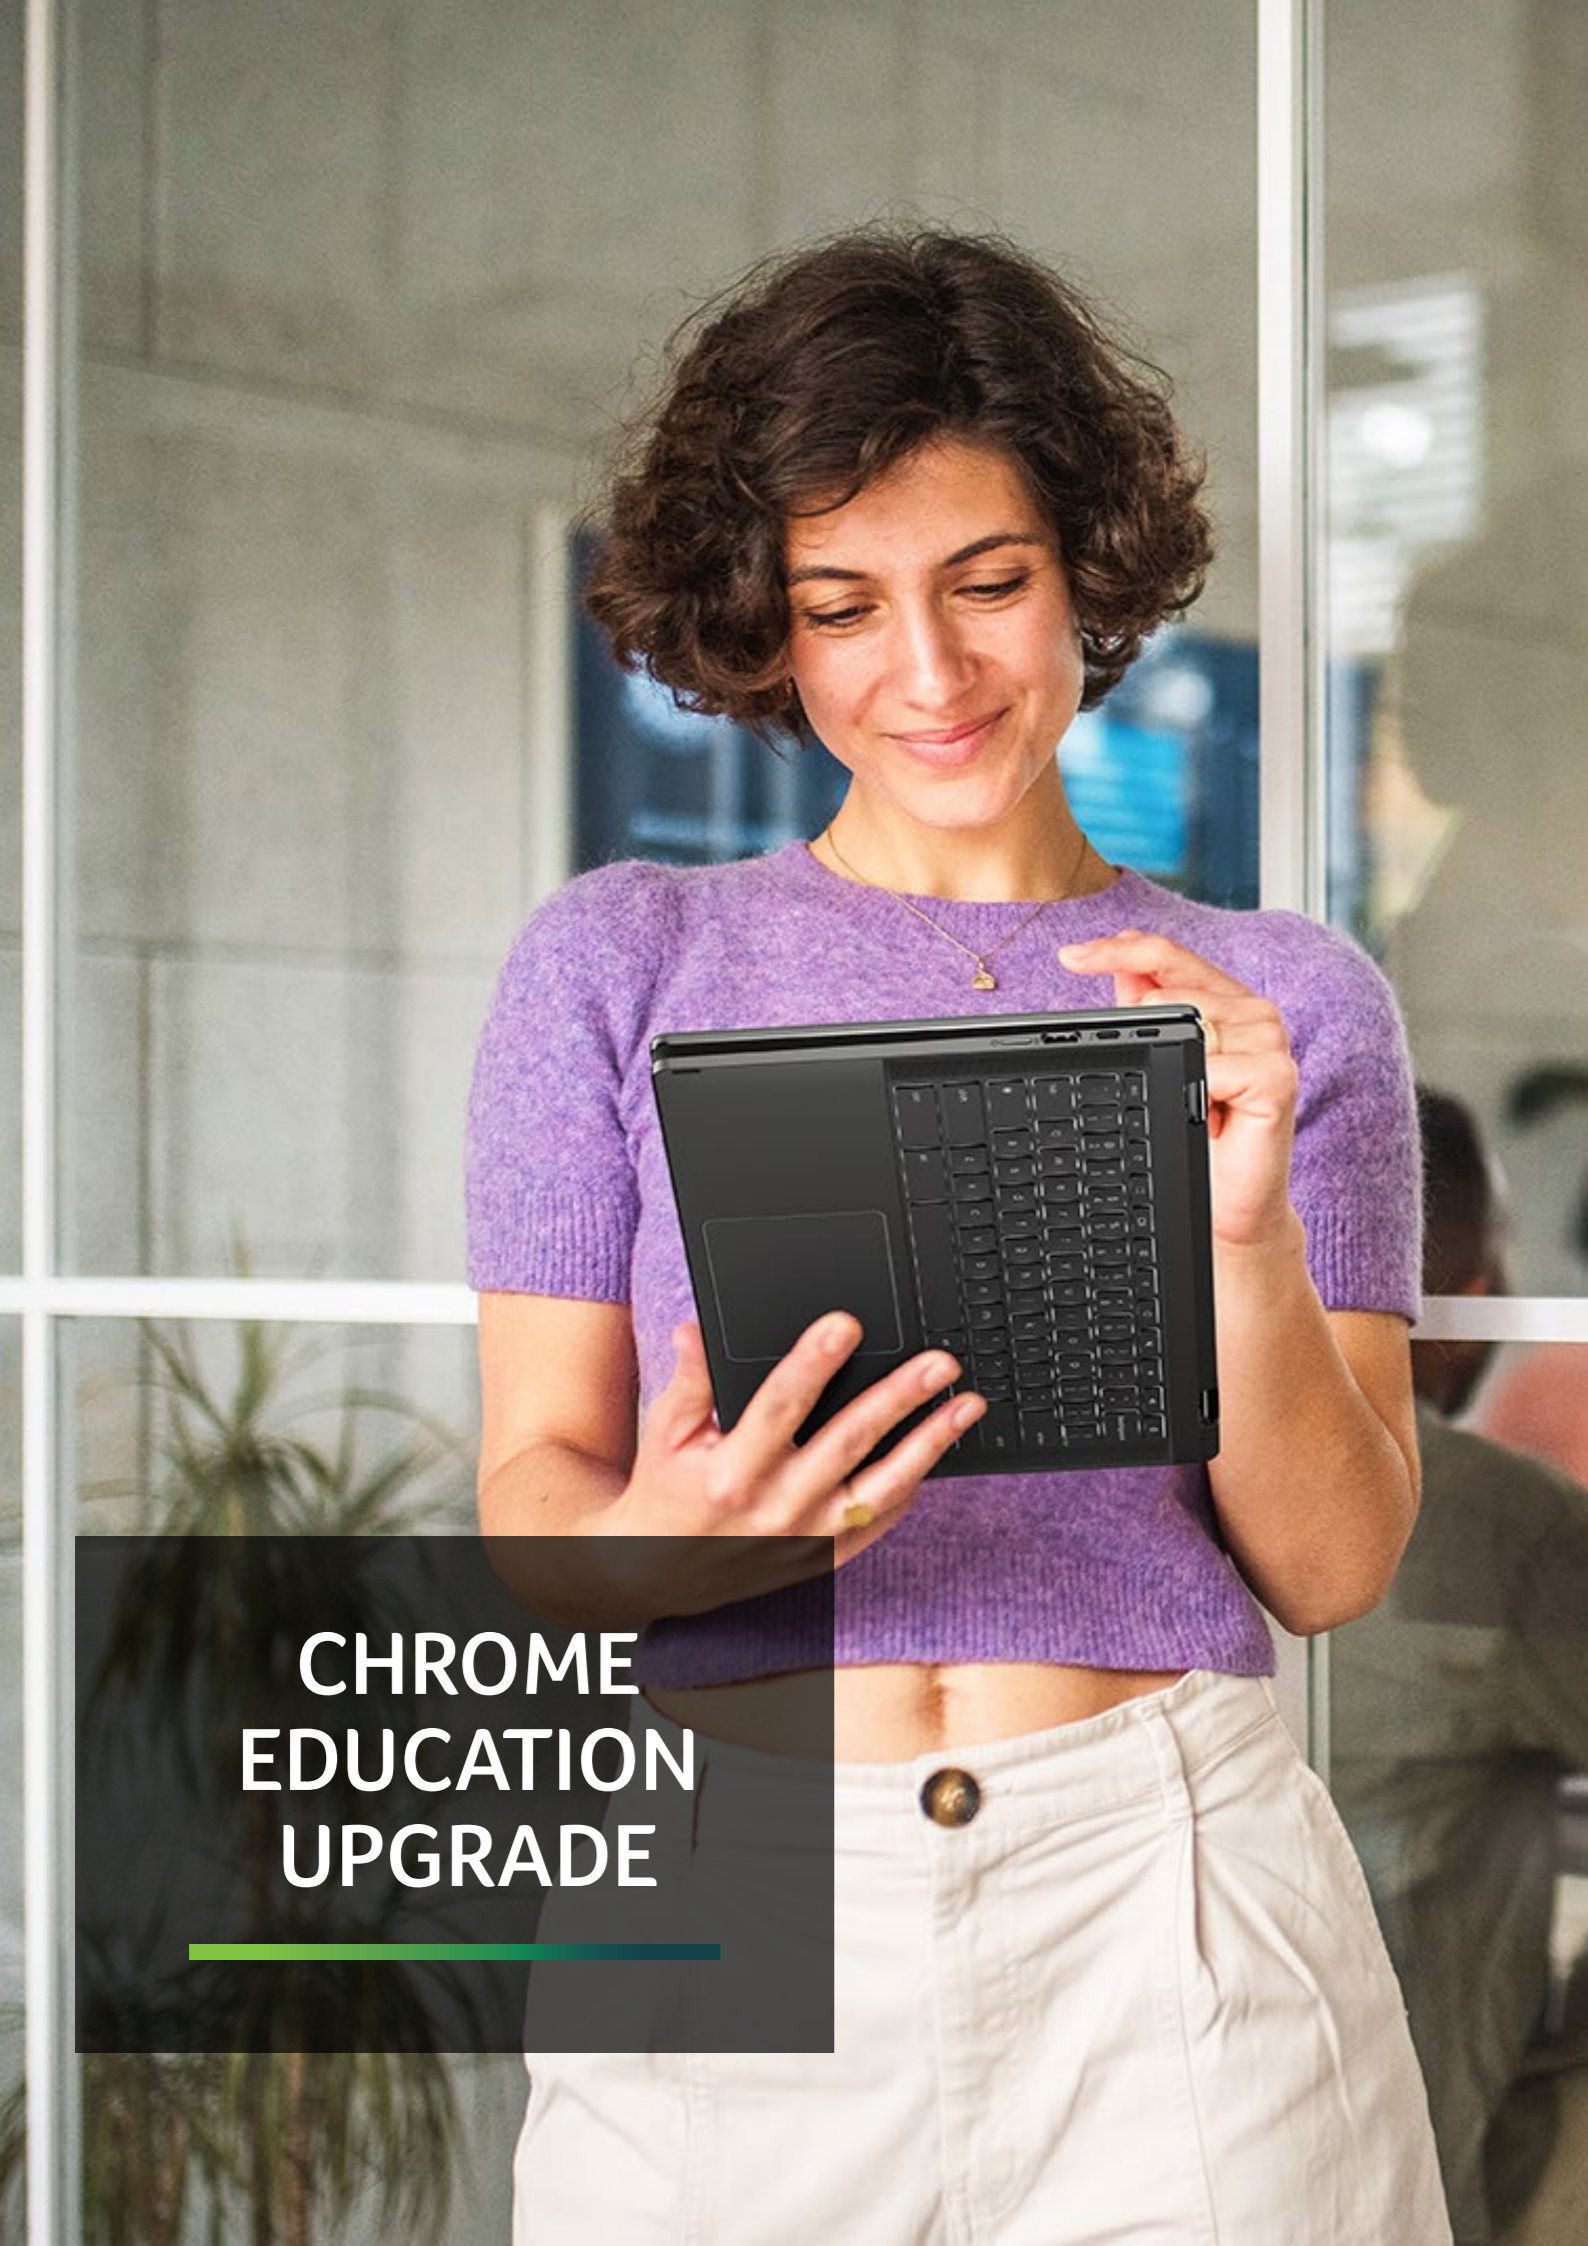

Scalable, cloud-based management

Manage devices remotely in Google Admin console, use third-party UEM solutions, or Chrome Policy API to manage at scale.

Get 24/7 support from Google at no additional cost

CHROME EDUCATION UPGRADE

CHROME EDUCATION UPGRADE

Supercharge deployment and onboarding for your entire ChromeOS fleet with enhanced device management, security, and 24/7 admin support.

Empower your IT team with centralized device deployment and management.

- Unlock over 600 policies within ChromeOS and ChromeOS Flex
- Restrict access to certain content and enable identity-free usage for shared devices
- Prevent data theft by remotely disabling lost or stolen devices
- Use persistent enrollment to ensure devices are always enrolled to your domain
- Automatically provision enabled ChromeOS devices with zero-touch enrollment
- Get 24/7 IT admin support for troubleshooting ChromeOS
- Make fleet management seamless by providing IT admins with info and AI-driven recommendations in the central Device Hub

Contact an Acer Representative to explore Acer Chromebook models shipped with Chrome Education Upgrade.

SUPPORT AND RESOURCES

We know that keeping things running smoothly requires qualified and dedicated support. For that, we're here for you and fully committed to making sure our products and services empower you more than ever before.

GLOBAL SUPPORT

WIDE NETWORK OF SERVICE

We have a wide network of experienced experts for service management, spare parts planning, warehouse management, logistics management, customer contact, and technical support. With worldwide presence and service support, Acer ensures your machine gets the care it requires.

GLOBAL FOOTPRINT

- 4** Central Logistic Hubs
- 30** Contact Centers in local languages
- 160** Countries and regions
- 3,000** Service & Repair Centers
- 30,000** Authenticated service engineers
- 5,000,000** Annual repair capacity

PROFESSIONAL SERVICE

- Online tech support
- Warranty extension
- International Travelers Warranty (ITW)
- Accidental damage insurance¹
- Data recovery service²
- Online warranty registration

1. Service vary depending on model and/or region.
 2. Service is limited to recover operating system to the manufacture's default settings.

IMPORTANT ACHIEVEMENTS AND RECOGNITIONS

REGIONAL SUPPORT

Acer Premier Care Services Customers Receive:

- U.S.-based support at no extra cost
- Experienced technicians
- Dedicated toll-free number
- Calls answered in under 16 seconds on average
- Parts ordering and purchasing
- Assistance with system and warranty registration
- Introductory “welcome” call

Mobility Suite

The Educare Mobility Suite provides coverage for TravelMate notebooks, Chromebooks, 2-in-1 notebooks, ICONIA tablets, and Aspire cloud-based notebooks. This service coverage includes options for:

- One- or two-year extension of limited warranty depending on the purchased model
- Three-year Total Protection Upgrade (including Accidental Damage Protection)
- Premium Battery Support
- Two-way prepaid freight for depot repairs

Self-Maintainer & ASP Program

Authorizes accounts to perform in-warranty repairs for products they purchased from Acer.

Requires signing self-maintainer or ASP contracts. Both in-warranty and out of warranty parts can be ordered from the Acer ASP website or via Premier Support. Qualified accounts may recover advanced spare parts to enable sameday repairs.

Product-specific online or in-person repair training available for qualified accounts.

Qualifying ASP accounts are eligible to receive labor reimbursements for in-warranty hardware repairs. Self-maintainer and ASP accounts can also send units to the Acer depot for repair at any point versus repairing the systems.

Desktop Suite

Acer Educare Desktop Suite includes additional coverage options for Chromebox and Veriton Desktops, including Veriton Ultra Small Form Factor Desktops, Veriton Minitowers and Veriton Apo Desktops. This service includes options for:

- Next business day limited on-site service for years two and three
- Prepaid freight to and from repair depot for three years
- Mail-in/carry in depot repair coverage for years two and three
- Extension of standard warranty for years two and three

For Schools and Businesses, Best in Class Service Programs

As an Acer premier customer, you get more than just a device to work with. You receive world-class technical and administrative support from a dedicated team of experienced level 2 technicians who will engage with you to resolve your problem quickly and efficiently. If you need repairs or just technical information on the product, you can always count on the various tools provided by Acer services.

Acer Premier Care Services

Acer customers will receive direct access via a dedicated toll-free number to the team of highly trained Premier Care technicians based at our Temple, Texas, facility. In less than 16 seconds, on average, they’ll be speaking with someone who has the knowledge and experience to efficiently resolve technical and administration issues. In addition, customers can order and purchase parts through Acer Premier Care and get help with system registration and warranties. No long waits on hold. No frustration with inexperienced reps. With Acer Premier Care a resolution is just a quick phone call away.

Acer Educare

Designed exclusively for education customers. Acer Educare targets the specific needs of resource-constrained schools delivering value-added services like battery replacements for heavily used notebooks and tablets, extended warranty and accidental damage coverage, and two-way freight for depot repairs.

Projector Suite

Educare also offers enhanced coverage for new Acer projectors, another critical component of a school’s instructional technology infrastructure. This program is offered only for projectors that have a three year base warranty and includes:

- One replacement lamp per year, with a maximum of three total
- Prepaid freight to and from repair depot for three years
